Entrance Information:

3000 South Street. Philadelphia. PA. 19104

- There are at least 10 stairs between a level walkway, leading from the South Street Bridge sidewalk, to the actual entrance into the upper levels of this building. There is an inaccessible stair tower from the bridge level down to the lower grade. The lower grade entrances have only one step up to enter, but there is no way of getting around the building to the rear, from the upper South Street Bridge level. You must approach the

building from River Fields Drive, off 38th Street. There is no elevator in the building. This is not an accessible building.

Elevator Information:

- There are no elevators in this building. There are five floors in the building.

Accessible Restrooms:

- There are no accessible restrooms.

Building Information:

- This building is not wheelchair accessible. This building is a converted power plant.
